

## Arab Heritage Authentication Centre

The Centre has been established by virtue of the university Chancellor's decree no. 85 for 17/5/2010. Taking into consideration our aim to have the Arabic World enlightened with and aware of its ancient heritage, and seeking keenly to publish its eternal works most of which are still in the form of manuscripts till this day. MUST has established this Centre with a view to authenticating the ancient Arabic manuscripts in all fields of knowledge, such as **Tafsir** (interpretation of the Holy Qur'an), **Fiqh** (Islamic jurisprudence), **Hadith** (Prophet Muhammad's Traditions narrated by His most trusted companions), in addition to literature and medicine. Hence, these valuable works are widely published in the Arab as well as Muslim Worlds as a valuable addition to culture and knowledge.

To do so, a distinguished group of researchers has been selected to conduct the authentication processes under the supervision of a number of renowned scholars in the field of Arabic manuscripts authentication. This step is considered the first to be taken by a private university in Egypt, which makes of MUST a pioneer in establishing a specialized centre in authentication.
